WORK EXPERIENCE

The Entrepreneurship Hatchery (Remote) Toronto, Ontario
Software Developer October 2020 – Present
• Demonstrated proficiency with **Python** using the **Beautiful Soup** and **Selenium** packages to scrape search results from 5 sites into a **JSON** file

Kids Great Minds (Remote) Richmond Hill, Ontario
Web Developer June 2020 – Present
• Redesigned the UI and UX by creating and iterating over 20+ page mock ups with **Figma** to match the company brand
• Deployed the new website with **WordPress** and wrote **HTML** and **CSS** to match the finalized mock up designs
• Modified **PHP** and **JS** files to implement new requested features, such as searching through over 200 available courses

Seer Professional Music (Remote) Glendale, California
Freelance Web Developer and Graphic Designer October 2020 – November 2020
• Created an online music library with **WordPress** to allow users to preview and download over 1250 songs hosted on **AWS S3**
• Designed a logo and wrote **CSS** for the website; view the logo design process and image of the final website [here](#)

Uplands Golf and Ski Club Vaughan, Ontario
Ski Instructor (Certified CSIA Level 2 Teaching) December 2014 – March 2020
• Led groups of up to ten 5-45 year old students, teaching them the basics of skiing and safety on the hill
• Explained technical skiing concepts to children in simplified language to ensure understanding and engagement during lessons

PROJECTS

Teacher's Portal – Full-Stack App Hypatia Systems
Front End Developer github.com/ushinghal19/teachers-portal
• Allows teachers to track students progress on assignments by providing them with informative statistics in real-time
• Developed using **React**, **Sass**, **Python**, Hypatia CheckMath API and a **GraphQL API** server built with **Django** and **MongoDB**

Project TWO-X – An interactive design for remote education The Design of Interactive Computational Media (CSC318)
UX Designer [View the Prototype](#)
• Worked in a team following the double diamond design process to diverge and converge on our problem space and solution
• Iterated over the design prototype using data from our research, usability tests, heuristic assessment, and more

Vokal – Web App HackThe6ix 2019
Front End Developer devpost.com/software/vokal
• Vokal helps users improve their presentation skills by analyzing video and audio in real-time
• Deployed the website using **Wix** after designing wire frames in **Figma**
• Researched and installed the required **AWS** products

Student Success Center – Web App
Software Developer and Project Manager
• A toolkit designed to assist 41,000+ students with tracking grade calculations and finding the right university program
• Created a web bot with **Python** to fetch users' grades and a web scraper using the **Beautiful Soup Python** package to fetch 2,300+ university programs and requirements

EXTRACURRICULARS & VOLUNTEER

- Computer Science Student Union: Office Operations Volunteer, Orientation Leader (2020)
